

The Price of Going Green

For just 50 cents you can join the Poudre Valley REA Green Power Program

Electricity generated from wind and other renewable sources is available to all PVREA customers in 100 Kilowatt hour blocks for just 50¢ per month. The environmental impact of your half-a-buck is equal to planting half an acre of trees. And you can sign up for as many blocks of green power as you like. An average house uses about 1,000 kilowatt hours each month, so for around \$5 you can **go all green**.

Your Touchstone Energy® Partner 

- Green Power can be purchased in any number of 50¢ blocks
- There is no minimum amount or maximum amount you must purchase
- There is no contract period, so you can start or stop your Green Power at any time
- Green Power is available to all PVREA customers **including businesses**.
